Re: Fitness Center Renovation Project

Dear Residents,

Commencing Tuesday, September 23, the fitness center will be closed for the construction portion of our renovation project from 8am – 5pm Monday through Friday until Monday, October 13. The fitness center will be available for use after 5pm during the week and all weekend. After construction is complete, the fitness center will be closed for approximately 2-3 days while the new flooring is installed.

Improvements to the facility include:

- The sauna will be removed and in its place will be a larger stretching and hand weights area
- The strength equipment will be updated to dual-function machines
- Rubber flooring will be installed throughout the fitness center

We will keep you posted as this project progresses. Thank you for your patience while we make this improvement!
